

Single Use Planet

In partnership with Kids Against Plastic

Enter our crafty competition for a chance to win a pack of your own eco art supplies!

Design your own 2-D jellyfish using single-use plastics! You can follow our steps below or use your imagination to create a jellyfish and help raise awareness of plastic pollution. You can create your jellyfish at home or come and visit the exhibition at Southside Shopping Centre on Sat 22, Sun 23, Sat 29, Sun 30 April and Mon 1 May, (10am-5pm) to create your design.

Step 1

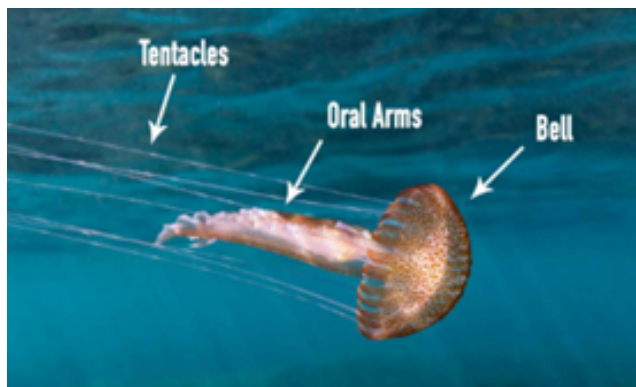

Draw a large jellyfish on the sheet of paper – use any colours and shapes you want! Be sure to include the three parts that you can see in the image below.

Step 2

Decorate your jellyfish using single-use plastics such as crisp packets, bread bags, bubble wrap, plastic carrier bags and other soft plastic items. Use only items that would otherwise be thrown away or recycled.

Think about experimenting with different patterns, textures and colours to make your jellyfish come alive.

Have a look at some of the examples below to get inspired!

Step 3

Submit your competition entry by 5pm on Fri 5 May by emailing us a photo of your design to creativewandsworth@wandsworth.gov.uk. Make sure you include the following details:

- 1.The child's name
- 2.The child's year group
- 3.The name of the child's school
- 4.The name and email contact of the child's parent or carer

We also invite you to post your design to Twitter! Tag [@CEP_Wandsworth](https://twitter.com/CEP_Wandsworth) and use the hashtags [#SingleUsePlanet](https://twitter.com/SingleUsePlanet) and [#TogetherOnClimateChange](https://twitter.com/TogetherOnClimateChange). Make sure you have parental supervision when using social media!

Winners will be announced after the exhibition closes on Fri 5 May.

Single Use Planet is a collaborative project facilitated by Wandsworth Council and the Royal College of Art, in partnership with Kids Against Plastic and hosted by Southside Shopping Centre. The project is led by artist Blake C. Joshua.

Join Kids Against Plastic!

Kids Against Plastic aims to help young people aged 6 - 13 learn about environmental issues such as plastic pollution and the Climate Crisis. Through free resources, initiatives and the awesome KAP Club, they try to inspire and empower others into action.

The Kids Against Plastic Club is free to join and encourages children to become active against plastic pollution.

You can join if:

- You want to take action against pollution
- You are aged between 6 and 13
- You have an adult that can support you

JOIN
HERE

When you become a member, you will:

- Be able to take part in a reward scheme and earn cool badges and certificates
- Get access to a Member's Only area
- Be invited to 'meet' Club leaders and join the weekly KAP CONNECT call on Zoom
- Gain points and rewards for joining in
